## *Testimonials*

*"Greyhound Pets of America is an absolute godsend to retired Greyhounds. What a precious service they provide to the noblest breeds around. Thank you, GPA, for all you do for the Greyhounds. You are immeasurably appreciated!"--Gary Guccione, Executive Director, National Greyhound Association (NGA)*

*GPA is in the forefront of developing a professional approach to the "business" of adoption and, more important, they are sharing that expertise with others. By working to coordinate efforts among all groups and by sharing expertise and information, GPA is placing its resources and its efforts where they need to be-on the dogs.*

*GPA is setting the standard for the adoption industry. GPA is showing courage and foresight by recognizing the need to unite all responsible adoption groups and the racing industry toward one common goal-placing every suitable retired racing in a forever home. But GPA is going beyond identifying a critical need. They are taking action. GPA is showing remarkable initiative and leadership. --Lee Livingood, author of "Retired Racing Greyhounds for Dummies"*
